**Clouds Help Predict the Weather**  
 Continuing our study of water and how it changes, we are studying clouds and weather prediction. This is a fantastic time of year to do this because we see so many different types of clouds in our own sky. Clouds indicate air pressure which can also help to predict the weather. You can help your child by observing the clouds, asking your student questions about the different cloud types and what these different types mean for our weather.

### Theatre Field Trip Friday October 17th (Not Wednesday October 15th)

On Friday October 17th, we will have our field trip. We will go to see the Real Story of the Three Little Pigs, in the Theater in the Square, Marietta. This fits in nicely with our Traditional Literature standard and our higher level thinking skills of compare and contrast. A permission form went home last week. Please sign and return with your donation of \$10.00, which covers transportation and entrance.

From *There's a Hole in my Sidewalk* by Portia Nelson

**I**  
 I walk down the street.  
 There is a deep hole in the sidewalk,  
 I fall in.  
 I am lost...I am helpless.  
 It isn't my fault.  
 It takes forever to find a way out.

**II**  
 I walk down the same street.  
 There is a deep hole in the sidewalk.  
 I pretend I don't see it.  
 I fall in again.  
 I can't believe I am in the same place.  
 But, it isn't my fault.  
 It still takes a long time to get out.

**III**  
 I walk down the same street.  
 There is a deep hole in the sidewalk.  
 I see it is there.  
 I still fall in. It's a habit.  
 My eyes are wide open.  
 I know where I am.  
 It is my fault. I get out immediately.

**IV**  
 I walk down the same street.  
 There is a deep hole in the sidewalk.  
 I walk around it.

**V**  
 I walk down another street.
